# Forever More
words and music
## Vin Distefano

I found in you,

That my dreams, they all come true.

Though I can't help but feel,

I'll miss you all nite.

So while I'm here,

Please hold me tight.

*Chorus*

   *And put  your head on my shoulder, girl,*

   *And lie here with me (a million miles away).*

   *Don't worry about the passing time at all, no.*

   *Just put you head on my shoulder, girl,*

   *And lie here with me.*

   *And say you'll be by my side, Forever More.*

We'll lie out at the sun,

Far away from everyone, yea.

Nothing compares to the light in your eyes

When you say you love me. Say it one more time, yea.

*Chorus*

(repeat)
